

### ***Update on Homeomesotherapy seminar***

Dear colleagues,

Having just returned from the training course on Mesotherapy Techniques (allopathic and homeopathic) with Martines Image company in Moscow (established since 1995), I have to tell you that I was very surprised how different their technique, philosophy and approach were from that which we've been taut in Milan earlier this year.

In Russia only medical doctors are allowed to practice homeopathy and homotoxicology, and those who are experienced in homeopathic mesotherapy, have emphasised that homeopathic mesotherapy DOES NOT WORK ON ITS OWN for skin revitalisation and must be combined with other methods.

I feel that I need to run a seminar to update those who are involved in Homeopathic Mesotherapy to be sure we are all heading in the right direction.

We set up the date to run a full day seminar on Saturday, the 26<sup>th</sup> September in my office in Mercury House, Nottingham. Our conference room has a capacity to accommodate 25 people maximum, so I apologise in advance if we are unable to accept everyone at this time. However, we have a large free car park in front of Mercury House. Drinks and light lunch will be provided. The seminar registration and coffee will start at 10.30 a.m. and we plan to finish by 4.30 p.m.

For those of you who are flying from abroad, we've arranged the company car for collection at East Midland airport from 7.30 a.m. on 26<sup>th</sup> September. Those who are coming by train or travel by car may find directions to Mercury House from our website: [http://www.in-vivo-health.co.uk/?content=contact\\_us](http://www.in-vivo-health.co.uk/?content=contact_us) (parking is FREE).

The purpose of this seminar is to raise your awareness regarding the advanced approach to homeopathic mesotherapy and the range of products currently and very successfully being used in Russia. You will be demonstrated more advanced techniques to achieve different tasks in homeopathic mesotherapy for skin rejuvenation and also very exciting technique used for pain management in homeosyniatry. You also will be shown the advanced protocols for skin revitalisation, lipolysis, post-lipolytic skin slackening, cellulite, stretch marks and melasma treatment plus other procedures that are compatible with mesotherapy.

The price for this seminar is only £35 to include the cost of printed materials, and we accept payments by cheques payable to In Vivo Health Ltd. Or by credit card via Goggle Checkout by the link within an email message sent to you.

I attach the seminar booking form for you as we have only few places left and look forward to seeing you in Nottingham on 26<sup>th</sup> September.

For your information, Dr. Bale who introduced mesotherapy to the U.K. will be attending and Dr. Benzanskiene (GMC registered) will be also demonstrating some procedures.

Look forward to hearing from you soon.

With best wishes,

**Alla Cranham**
